Prerequisites

- *Cosmetology License
- *High School Diploma/GED
- *Strong work ethic
- *Positive attitude
- *Team Oriented
- *Highly Motivated, Initiative, and goal-setting
- *Capable of handling a high-energy and fast-paced environment
- *Willingness to establish and maintain a professional image

Program Overview

24 weeks total. On Mondays the salon is closed to the public for the interns to have a full day of one-on-one teaching, lectures, and demonstrations. Mondays are also the day that any hands-on procedures, cutting/color classes, and models will be utilized. Tuesdays through Saturdays are days when salon is in full operation and the interns will learn by being assistants to designers, observing designers, having one-on-one experiences with salon clients, and doing various tasks to maintain the salon in its high paced business atmosphere one day a week. After the interns have completed the program in it's entirety, they are eligible and may be offered a position as an Onyx Designer.

The Onyx Program "difference"

As an intern at the Onyx Premiere Hair Studio, Inc. you will undergo the most intensive, sophisticated and comprehensive training known as the United State RUSK Curriculum. Few companies have had a greater impact on the art and technique of hair cutting, color and product science than RUSK. RUSK's cutting techniques, product innovations and design vision have set beauty industry standards and they constantly continue to break new ground. Rusk techniques and vision have been described as "The world's finest hair care." Singularly dedicated to raising the artistic, business and personal performance levels of progressive, committed stylists through: Unrelenting education; undeniably superior products and services; and unparalleled communications. Rusk does this with a style and an attitude that separates them from the rest. This exclusive education is only taught by professionally trained RUSK Educators, internationally recognized for their individual innovation and talent, commitment to continuous learning, and competitive drive for excellence in hair design. Select few hold this elite status: the world renowned RUSK team boasts fewer than 150 United States Educators, with less than 200 globally located in over 22 countries. Onyx Premiere Hair Studio is proudly the home of these 8 Rusk Educators. As an Intern at Onyx, your education is unparalleled in the communities of Roanoke, Salem and surrounding southwest Virginia.
